<b>Technical data:</b>	<b>Nature of the product</b>	Liquid
	<b>Colour</b>	White
	<b>pH-value (concentrate)</b>	approx. 8
	<b>pH-value (1 %)</b>	approx. 6 - 7

**Application:** Before shampooing, the carpet should be vacuumed thoroughly.

Application	Dilution
General:	1 : 6
For fine-fibrous material:	1 : 10
For stains: prepare with	1 : 6

Make sure that only foam can get onto the surface but no liquid. Never soak the carpets!

The drying time depends on the quantity applied and the ambient air humidity. Only step on the flooring after it has been dried completely and vacuum it thoroughly.

Manual application: Create foam by multiple pressing and releasing of a sponge in the diluted solution until compact and stable foam has been generated. Homogeneously distribute the foam on the carpet and allow it to act for 1 minute, then rub it in using a sponge and allow it to dry. For upholstery use a brush with a cloth wound around it.

The agglomerates generated after drying from the active substance and dirt do not stick on the fibres. They can easily be removed mechanically without the formation of dust.

**Storage:** Protect from frost!

Always keep containers well closed, out of sunlight and out of reach of children. Do not expose to high temperatures.

In closed original trading units at room temperature it is stable for at least 24 months.
