

Technical Information

07.20

Product: Duplo Special

Item number: 2650

Product type: Multi-purpose emulsion

Nature of the product: White liquid

Properties: Duplo Special forms a self-glossing, slip-resistant and hard-wearing film. Can also be used as a wipe care product for cleaning and care in a single operation. The film is resistant to footprints, such as black heel marks. A coating with Duplo Special is therefore particularly suitable for heavy-traffic areas. Suitable for all water-resistant floor coverings, PVC, plastic coverings, sealed parquet, linoleum and especially for stone, terracotta and tiled floors.

Application: During initial care, clean the floor with a suitable basic cleaner, e.g. PUDOL Basic Cleaner Beta clean, wipe with clear water and allow to dry. Apply Duplo Special thinly and evenly and allow to dry well. If necessary, apply a second film. Maintenance cleaning by wet wiping: Use Duplo Special diluted 1 to 2%, i.e. 80 ml to 160 ml in 8l water. For faster build-up of a care film during maintenance cleaning add Duplo Special in a ratio of 1:8 and wipe wet. Use of Duplo Special in the cleaner process: Application concentration 1:1 to 1:4.

Ingredients as per regulation (EC) No. 648/2004/EC: < 5% phosphates, non-ionic surfactants; perfumes (DIPENTENE, BALSAMTERPENTINOEL, CITRAL), perfumes, BENZISOTHIAZOLINONE, METHYLISOTHIAZOLINONE.

Special information: Contains 1,2-Benzisothiazol-3(2H)-one. May produce an allergic reaction.

Storage: Store and transport it under frost-free conditions.

Packaging unit: 1 l bottle, 12 pieces in cardboard box,
10 l canister / 60 canisters per pallet
