Product Data Sheet

Microfiber Cleaner

M850-10054

8.5 fl. oz. bottle

Product Description: Microfiber Cleaner is a totally solvent-free cleaner for delicately and efficiently removing dirt and water-based or greasy stains from micro fiber.

Characteristics:

Physical state: Liquid

Package life: Maximum 1 year from date of manufacture, must be kept in original container.

Storage: Protect from freezing. Store above 40° F.

HMIS:

Health: 1

Flammability: 1

Reactivity: 0

Personal Protection: B

Specifications:

Leather type usage: Microfiber Cleaner is for micro fiber only.

Pre-test: Shake well before using. Dampen a white cloth with the product and lightly rub on a hidden area to see if any color is removed onto the cloth. If color is removed, do not use the product. Also, check to be sure there are no rings left after drying.

Directions: Before applying Microfiber Cleaner, try to remove as much dirt from the micro fiber as possible with a non-abrasive absorbent cloth. Starting at one side of the stain, try to remove any loose or excess dirt with an upward swiping motion, being careful not to push the stain deeper inside the micro fiber. Apply Microfiber Cleaner on a soft sponge and squeeze repeatedly in order to generate foam. Gently rub the foam into

the micro fiber with the sponge to achieve the cleaning effect. For very dirty areas, it may be necessary to repeat this operation. Allow the spot to dry naturally, or use a hair dryer held a reasonable distance from the micro fiber. Keep the fiber moving with your hands for a more natural result. When the micro fiber is dry, lightly brush the area with Reviving sponge.

Safety cautions: Contents are Non-Flammable. Do not ingest. Wash hands thoroughly after using. Keep container closed when not in use. Do not transfer contents to other container for storage. Use only in a well ventilated area. Avoid contact with eyes, skin and clothing. Avoid breathing vapor. Additional local exhaust ventilation is recommended where mists or vapors may be released,

KEEP OUT OF REACH OF CHILDREN.
